

Small space solutions

BATHROOMS

Spacious bathing zones are blissful but a small bathroom needn't cramp your style. Splash out on storage, get hooked on hanging kit and be savvy with neglected nooks around the home. Here's how to blow bijou bathroom restrictions out of the water!

BY SARAH WARWICK

1 Mirror, mirror, on the wall

A mirror is handy in the bathroom but it becomes magical when used architecturally, bouncing light around and helping tiny washing zones feel like airy spaces

Covering a bathroom wall in a floor-to-ceiling **mirror** (try www.bespokemirrors.com) will give the illusion of more space by reflecting fittings and furniture – we love this 'Componibili 3' **storage unit** by Anna Castelli Ferrieri for Kartell, from £49.50, available at Aram Store (020 7557 7557; www.aram.co.uk). A chrome **basin** will also throw light around – for a similar wall-hung version, Avante's range is available on space-saving brackets, from £99 (01 132 01 2259; www.avantebathrooms.com)
