

THE BEST OF... BATHROOMS

A brief look at some of the latest offerings in the bathrooms market – from the latest in Italian design to some stunning beauties closer to home.

ITALIAN BATHROOMS MANUFACTURER Kos creates contemporary tubs, shower cabins, and shower platforms. The Grande Quadra is designed by Lukovica+Roberto Palomba. Generously proportioned at 1600 x 1800 x 700mm, the metacrilite tub is also available with a combination step/seal. kositalia.com

Moments from Ideal Standard is designed by German design studio Artefakt. The collection combines functionality, choice and intelligent use of space. Wash basins, toilets and bidets can be floor-standing or wall-hung. Innovations include 'fold away' taps and bath shower heads which slide away for safety and tidiness, a detachable bath enclosure which pulls out to provide hidden storage space, and a 'soft closing' toilet seat to eliminate slamming. ideal-standard.co.uk

The Fairfield collection from Samuel Heath revitalises the traditions of the Arts and Crafts and Aesthetic movements but is compliant with modern standards. This concealed thermostatic shower valve and over-sized shower rose are crafted in solid brass with a shiny chrome finish. The shower rose is available in 200mm or 300mm diameter.

Add a little P-zazz to your bathroom

HUDSON REED'S P-zazz shower has a concealed twin thermostatic shower valve. The T-bar flow and crosshead temperature controls allow the preferred water temperature to be left at the same setting between showers.
